

TerraBytes - FIRST LEGO League Team 62345

National Youth Robotics Sponsorship 2026

TerraBytes (FIRST LEGO League Team 62345), representing CFI Robotics NFP, has advanced beyond the Illinois State Championship and has been invited to compete at the prestigious [American Robotic Open](#).

As a community-based, multi-school robotics team, TerraBytes brings together students from across the region to represent collaborative, inclusive STEM excellence on a national stage.

Sponsorship Impact

Your Support Enables:

- Advanced robot engineering, programming, and performance refinement
- Innovation Project development aligned with national judging standards
- Structured technical coaching and extended training
- Expanded access to high-quality, community-based STEM learning opportunities for students from diverse schools and backgrounds

Your Organization Gains:

- Investment in future engineers and technology leaders
- Support for regional, opportunity-driven STEM education
- Brand visibility through team uniforms and digital recognition
- Demonstrated commitment to youth development and innovation

Sponsorship Levels (Custom corporate packages available.)

Bronze – \$100	Name listed on team website
Silver – \$250	Logo displayed on website and promotional materials
Gold – \$500	Logo placement on team uniform
Platinum – \$1000+	Premium uniform placement and featured recognition
